Hi Sally

I was checking out the table yesterday and did want to mention to you the states leads are working on the table but none have really address the last column "**Specific Actions to Improve and Expand Access**". I was going to bring this up in my monthly call on THursday. Britta is going to join the call and help talk through the table and make sure the states are all on the same track.

I and Britta will follow-up with you after the calls to let you know where the states are on this request.

Britta, can you coordinate with Mara and Tim to see how we're doing on getting state responses on the google doc? Both confirming the closure data and inputting opportunities? Let me know which states I need to reconnect with, if any, to get their input.

Thanks for an update tomorrow.

Sally

Sally-

BLM-Utah has no concerns with to the request related to SO 3356 and WO 410's recommendations.

Utah's only closures within the two national monuments are under the generic CFRs that prohibit the discharge of firearms within developed recreation sites. We do not have any land use planning level decisions related to restrictions on target shooting, hunting or fishing within the Monticello RMP or the GSENM MMP. In the case of Bears Ears, we are already directed under the existing proclamation to initiate a new land use plan.

Our assumption is that if any changes are made as a result of action on the Monument review, then we will likely need to initiate a land use plan amendment or revision for GSENM as well. So, if we're in a situation where land use plan amendments are already pending, we could certainly easily incorporate any new guidance related to hunting and fishing opportunities.

I have included responses and comments within the Drive document. Please let me know if you have any questions. Thanks!

Anita,
Aaron and Allison have been given access to the document.

Thanks so much everyone for your assistance!

Good morning, Sally. Hope you are well!

Can you please give Aaron Curtis and Allison Ginn google drive access for UT review? They will take lead for our review. Thank you. Anita

Good morning, Abbie,

The WO has asked that we review previously compiled information with an eye for specific questions that Sally outlines. I believe Aaron and Allison could take the lead and coordinate with our field folks as necessary. Would you let me know if you agree or if you have another recommendation and I will ask Sally to provide our additional Utah folks access to the google drive as appropriate.

Thank you, Anita

Subject: Due 11/21: Input on SO 3356 Sec. 4b(1) report - amending monument plans

Dear Associate State Directors:

We have been asked to compile a report for the Acting Director in response to Secretarial Order 3356, section 4b(1), about amending national monument management plans to expand hunting, fishing, recreational shooting, and access opportunities.

Attached is a short executive summary and table (i.e., draft report) that includes information from previous data calls that you have kindly responded to. Information included in the table is listed by State and

National Monuments for those monuments with (1) both hunting and recreational shooting restrictions and closures; (2) those with recreational shooting restrictions or closures; or (3) those with no hunting or recreational shooting restrictions or closures.

We would like your review to (1) make sure we correctly captured the information we already gathered from your State; (2) ensure that we provided appropriate planning recommendations; (3) address items noted in red text that ask for reference/citation information; and (4) request your input about specific opportunities to improve and expand hunting, fishing, recreational shooting, and access in national monuments.

Please provide your edits or comments in the attachment by COB on Tuesday, November 21st.

Please let me know if you have questions.

Thanks so much for your time, Sally
